safeCreative

User guide

Register from the Web

1. Choose the type of work. Literary, audiovisual, audio, visual arts, software…

- and upload the file containing the work

2. Add title of the work.

- Add, if you want, a description and information labels to give idea of the content of the work to others and make it easier for you to manage it.

- Choose a license. Licenses allow you to share your work under your own conditions.

- Decide what information you want to make public.

3. Indicate who the author of the work is, with your real name, with a pseudonym, co-authorships or register other rights recognized by copyright laws.

Follow the steps to fill in the necessary information.

A copy of your work will be filed at Safe Creative.

Inform and share

Only you choose whether to make your registration public.

The registration file shows the date, author, co-authors, rights holders, license, and all the information provided during the registration of the work.

You can use an identification code or Safe Creative's tags in order to help others find the registration file and contact you if they need.

Safe Creative for Professionals

Advanced features to manage your works' rights.

Certificates and registration proofs

You will be able to download and save the certificates on your computer, so you can use them whenever you need them.

History of works

You can register your work even if it is in the process of creation by registering successive versions of it. None of the records are deleted, they are added to a record history, giving greater strength to the evidence.

Private registry

You can leave the information of your work hidden, so that it does not appear in the searches of Safe Creative.

Co-authorship

You can register works with multiple authorship, indicating to what extent each co-author has contributed to the final work.

Automatic registration

You can register from Dropbox, WordPress, Google Drive, RSS and Google photos automatically.

Safe Creative for Business

Our most powerful account allows you to manage third party rights.

Third parties' rights' management

One single account to add employees and clients. Generate evidence and inscriptions of rights on their behalf, and record your own rights over works as an entity.

For instance to register rights of musicians, writers or other artists you legally represent.

Declaration of related rights

Declare rights over the works of third parties or send invitations to others so they can record their acquired rights over your works.

For instance to declare the rights of an employee creating works wow your company and at the same time declare your patrimonial rights for those.

Document management system

To safeguard and manage documents related to your organization, to each represented party and to each work: authorizations, contracts, sketches, procedure sheets...

More storage

100 GB of reserved storage for your account and with the possibility of upgrading.

Certified publication

It allows you to generate a provision of evidence with a defensive or accrediting character that can be used, for example, in cases of opposition against improper registrations, especially in the field of industrial property (patents, utility models and designs).
Registration at the U. S. Copyright Office

6 first processing's have no management fees.*

*In all cases USCO government fees and financial expenses are charged.
